## INTRODUCTION

Here in East Orange High School, each student spends four of his most important years.

It is a time of concentration put forth to attain future goals.

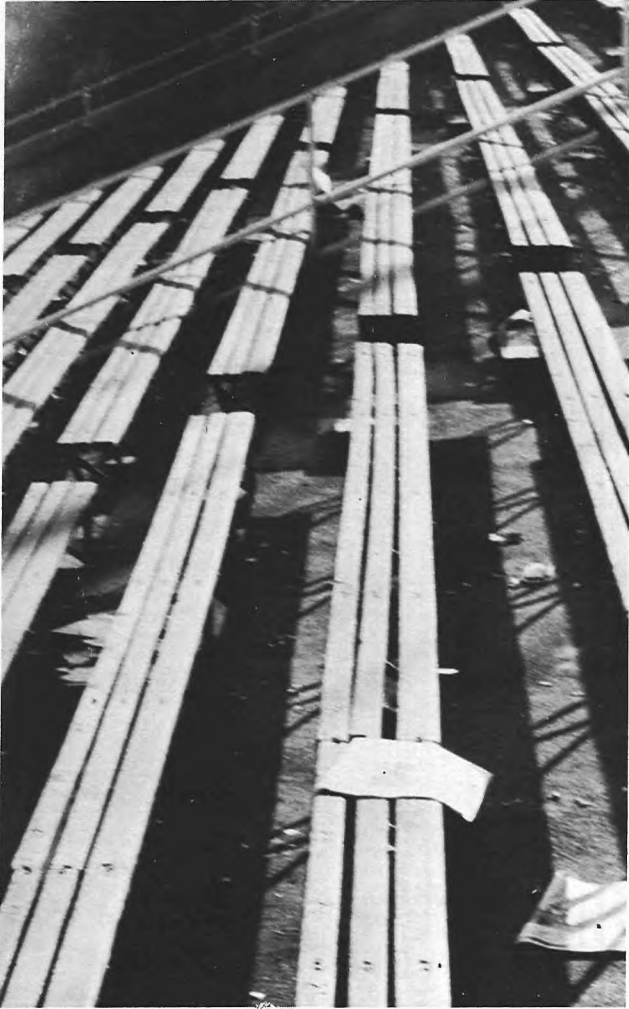

It is a time of gaiety and enrichment where each individual hopefully learns to live with and respect faculty and fellow students.

The time spent here in E.O.H.S. will be unforgettable memories all will cherish. From the time one is a Freshman, advancing through his Sophomore and Junior years, until the day he is finally recognized as a Senior, E.O.H.S. will prepare him to go out to face life as it really is. Through all our trials and tribulations here in E.O.H.S., we will be capable of finding good times to enjoy . . . attending classes, walking down unknown corridors, opening doors to excitement and adventure in new and old subjects. We will always think of the past and the present and look forward to the future.

The years spent here in E.O.H.S. will truly and understandably be an experience we all shall remember. One day we will all look back and think and say . . .

Education is one of many keys to a successful future. The administration, faculty, and staff at East Orange High School try to create for each student the best education possible so that he will be capable of unlocking the door to success and happiness.

Today, education challenges each individual. If he cannot meet this challenge his chance for success and happiness are greatly reduced. Today, a higher education has become a necessary part of life.

Here at E.O.H.S., we meet this challenge head on and usually conquer it.

Those who follow in this section are the people who create the challenges with which we clash in order that we may have the best.

## EDUCATION

# BOARD OF EDUCATION

## BOARD OF EDUCATION

SEATED: Winfred S. Gideon, III, Vice-President; Mrs. Mildred E. Barry, President; Mr. Alfred W. Wishart, Jr.  
STANDING: Mrs. Marvis Reuter, Mrs. Lois Vreeland.

The purpose of education is to provide each student with the skills and knowledge needed to advance the scope of what he can accomplish in the world in his lifetime. High school is the halfway mark in the students learning process. It is the most critical of all previous years for the student has reached his point of decision about what will lie ahead for him once high school is over.

The job of administration is to give the student the opportunity to choose any career he desires. The student depends on reliable sources and teachers to give him knowledge. These things along with desks, chairs, paper, and even chalk are part of the budget which the Administration must work within each year.

The problems are many and the hours are long. Constant research, consultation, and awareness of student needs are required to meet the goals which the administration establishes for the education of the young men and women of E.O.H.S. in particular and the whole community in general.

# GUIDANCE

The counselor in Guidance finds himself in a very improbable position. He must know the needs of each student assigned to him and offer advice to people he doesn't even know such as a graduated student, the parent of a current student or a person who never attended E.O.H.S.

Patience, knowledge, and encouragement are qualities of each person in the Department. The student needs these qualities. Four years of decision-making is not easy to do without proper information and understanding. The student doesn't have to fill out forms every day because there has been no need for him to do so. Filing PSC statements or preparing for College Boards or deciding on subjects for the coming year are all new to the student at some time. That one time to the student is one times one million to the counselor. But the most important characteristic of the counselor is that he doesn't view the student as just another number before the five million mark but as a one in one person with problems similar yet special from anyone else.

VIRGINIA H. RANDOLPH, M.A.

*"Electives may be the determining factor in a choice of a profession."*

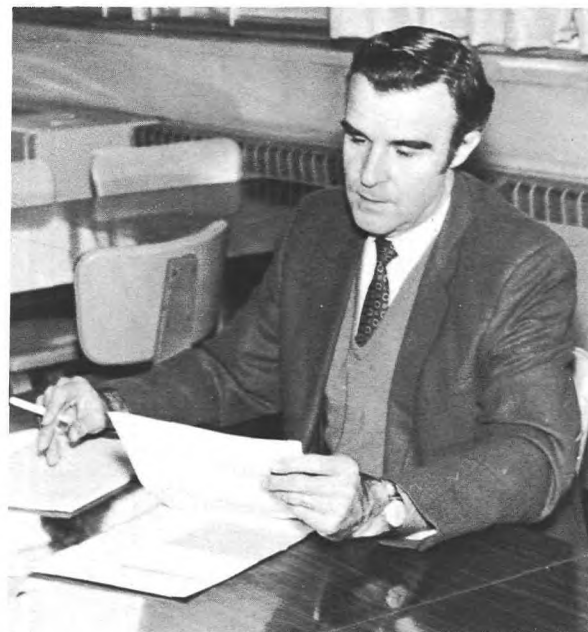

# ENGLISH

The English Department in any school plays a major part in shaping the student's future success. English is the most commonly spoken and written language we know in this country. To master the language is a giant stride forward.

To help the student along, there are various levels of English which are adjusted to the needs of the class rather than forcing grammar, spelling, vocabulary, and writing on the students.

After the basic skills are learned, the course branches out to envelop different and more interesting areas of the literary world, such as the study of short stories and poems and classical plays.

The English Department also offers courses in Better Writing, Modern Literature, Journalism and the Humanities class. Each course strives to enrich the awareness and character of the student.

# HISTORY

The aim of teaching History is to get the student to think logically. There is much activity in the world today which requires reasoning in depth to understand the two sides of every decision, which has been and is currently being made. By studying the past and relating it to the present, the student will recognize parallels in History — some good, some bad — worth noting.

The History Department reaches to all students in all courses of study. World History traces world heritage. The student is exposed to man's constant struggle for all forms of freedom, from times before United States was born. Civics-Geography teaches the student the working federal offices and the responsibilities he has as a citizen. The student also learns about maps, charts, and the influence of the earth's surface and climate. World Geography is a study of the world and its problems as they exist today. The student can't understand these problems without knowing what influences them.

An elective open to upperclassmen is Afro-Asian History. This course studies little known areas of Africa and Asia and the social, political and cultural ideas of the people in their countries.

U. S. History 1 and 2 are required by state law. The subject is the economic, political and social problems of this country since the colonies were established to the present positions. In Advanced Placement History 1 and 2 this same idea is followed, but the discussions depend upon the participation readings of the student on the level of college freshmen.

Modern Living classes are offered to young men and to help them understand the social problems today and the need for self respect.

RUTH E. LINDSAY, M.A.

*"Take all the pictures you want."*

KENNETH T. WILSON, B.S. in Ed.  
*"The Republicans did that too."*

HOWARD WOLVERTON, JR., M.Ed.  
*"You big piece of cheese."*

# LANGUAGE DEPARTMENT

The aim of the Language Department is to bring unity throughout the world by means of communication. There are many problems in the world such as poverty, crime, education, and pollution, but language musn't be a barrier.

Each language class stresses the use of proper grammar and speech. There are six languages taught in East Orange High. They are Spanish, Chinese, Latin, Italian, German and French.

There are awards given to students who have achieved excellence throughout the year in their language study.

The language department sponsors a trip to South America for Spanish students.

By the time a student has completed four years of a language, he will have contributed towards bringing the language gap closer together.

FIorentino A. DEMARZO, M.A.

*Head*

*"Well, I'm not a violent man, you see."*

MABEL E. BRIGGS, A.B.

*"Right lesson — Wrong page."*

RICHARD G. WHARTON, M.A.T.  
*"There are only sixty questions to be answered."*

MARGARET YOBBI, B.A.  
*"Si Senor. Je n'appelle pas Mata Hari."*

# SCIENCE

The Science Department offers four years of complete study in that field.

Basic Science gives the student information in three areas of the sciences including biology, physics, and chemistry.

Biology examines the life cycles of every form of life. The laboratory lets the student actually see the workings of animals systems which are similar to those of the human body.

The physics course along with important lab periods helps the student understand the laws of nature and how they relate to the surrounding environment.

Chemistry explores reactions of materials and elements of the periodic table, and their importance in everyday living.

Aerospace Education is a relatively new course. It involves the study of science, mathematics, and social studies in relation to the Space Age.

ELMER W. VAN GILDER, M.S.  
*"Go to your room, Ray."*

D. RAY WENGER, B.S.  
*"Mr. McCormack always said I couldn't draw a straight line."*

# MATHEMATICS

JAMES J. MONTGOMERY, M.ED.

*Head*

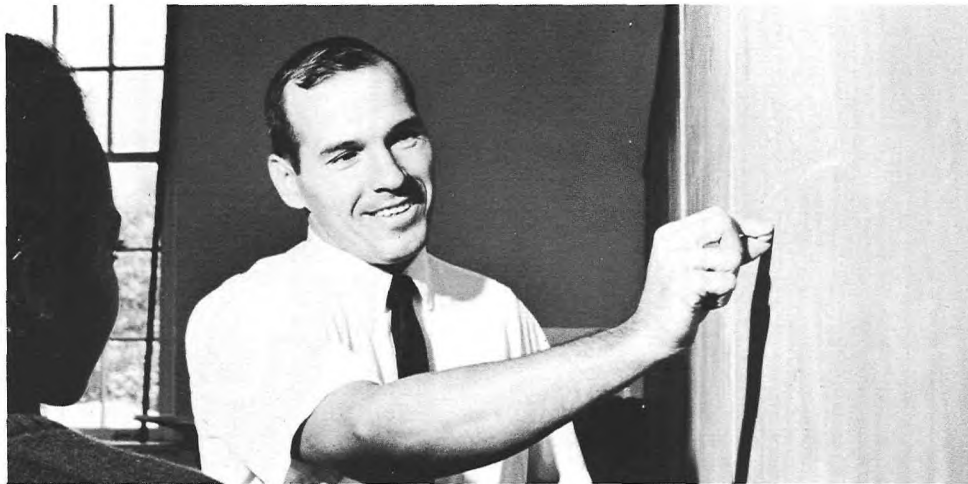

*"My wife won't take any nonsense . . . whether I'm clairvoyant or not."*

The Mathematics Department offers courses to aid the student in any chosen field.

The general course develops the student's previous knowledge of mathematics and gives him the basic skills needed to compete in today's business world.

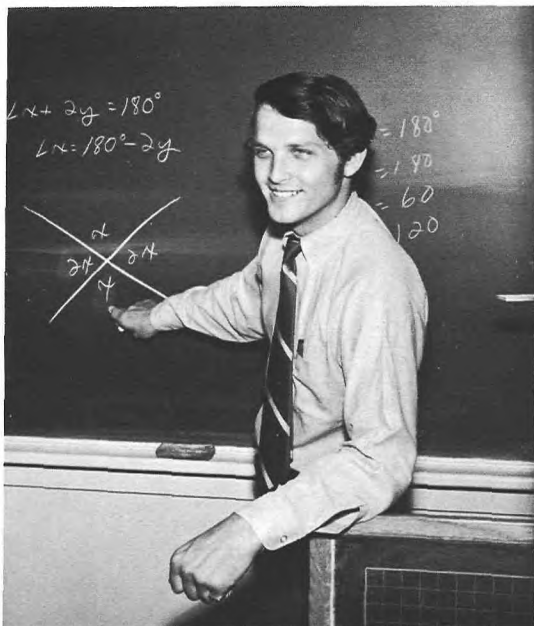

The college preparatory courses include algebra, geometry, trigonometry and calculus. Also the abstract nature of mathematics and the proper use of the language are utilized so that the student will be capable of handling himself in college competition.

Math Review is offered to upperclassmen who need to reexamine their mathematics background. The course review includes algebra, coordinate geometry and an introduction to analysis and probability theory.

JAMES D. BERRIER, M.S.T.

*"My fingernails write better than chalk."*

WALTER E. COHRS, JR., B.A.

*"You think my X's are bad. Wait until you see my Y's."*

ROBERT E. DEBOLD, JR., B.A.

*"But you can't distribute subtraction over division."*

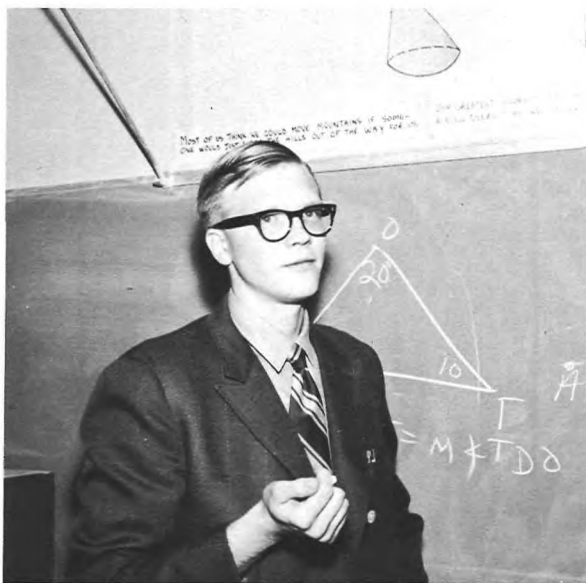

PEGGY DEROSA, B.A.

*"If the News is this bad next time, I WILL destroy it."*

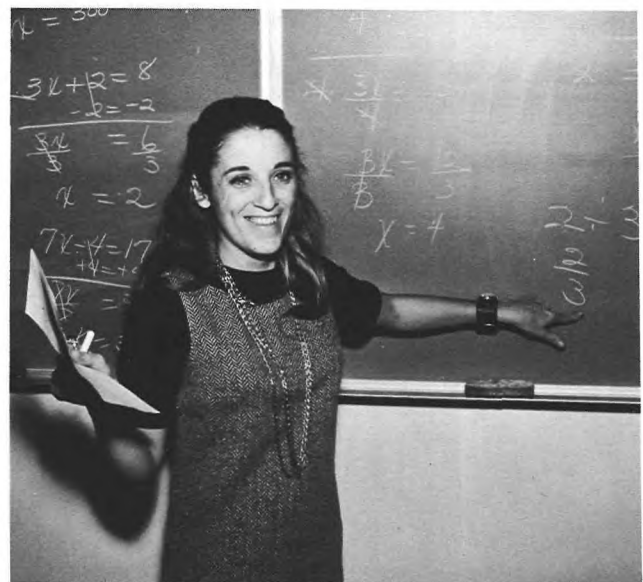

JANICE IPPOLITO, B.A.

VINCENT J. MIRANTE, B.A.  
*"Well, I never claimed to know everything."*

TERRY MITCHELL, B.S.  
*"I try to be informal when teaching math to a physics class."*

VERNON E. NELSON, B.A.  
*"Don't be so typical."*

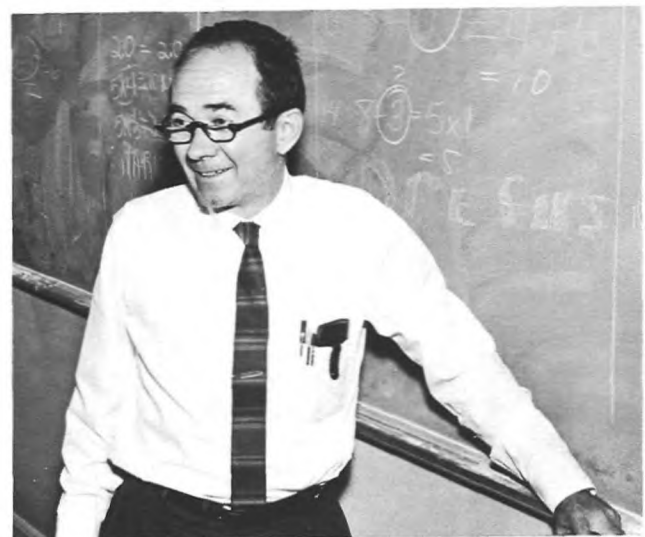

EVELYN PEFF, M.A.

*"If the students understand one half of one lesson I'll be grateful."*

MICHEAL J. ROMEO, B.A.

*"Sure is hot in this jacket."*

WALDO W. SIMONS, M.S.

*"I won't give you a pass . . . but don't get caught."*

DONALD STEIN, M.A.

*"Oh that was very funny."*

# BUSINESS EDUCATION

The Business Education Department offers many programs of study to students in Business or General patterns who will make a career in the business world.

The student is exposed to probable business situations, banking problems, budgeting, and the economic displacement of today's world.

Courses are given in improving and learning skills needed such as Typiwriting, Stenography, Bookkeeping, and Shorthand.

To encourage the students attitude toward business-like thinking there are courses in Sales, Arithmetic, Consumer Economics, Business Law and Clerical Practice.

The Distributive Education program provides the student with the opportunity to put to use the skills he has acquired combined with classroom study. The Cooperative Office Program is also a course in work experience for seniors interested in office related work.

ARLENE W. KING, M.A.

*Head*

*"Well, nobody said this job would be easy."*

ANTHONY F. BORTNICK, B.S.

*"Took my ribbon again."*

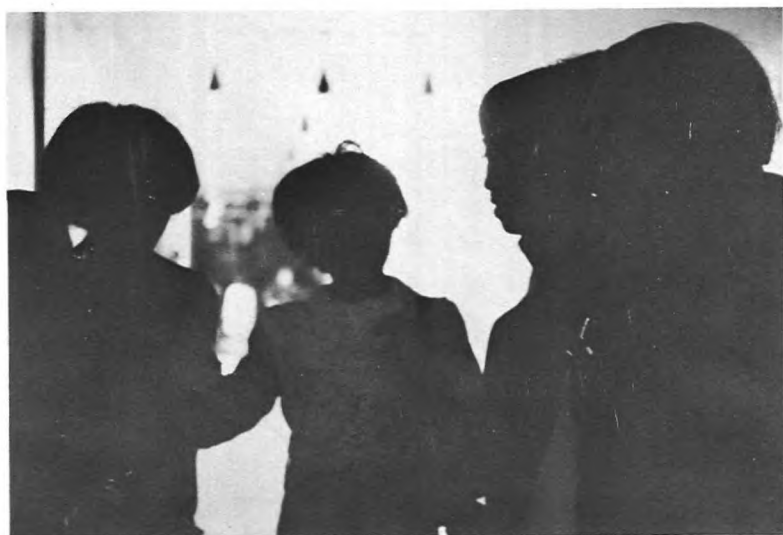

HENRY E. GEILS, B.A.

*"Believe me. It's not every class I dread like I dread this one."*

*Everybody take one giant step.*

HARRIET SIMMONS, B.S.

*"You're using up precious seconds"*

DONALD V. STELLHORN, B.A.

*"If the printing was bigger I could read it."*

# MUSIC

Music is the universal language and the human voice is the universal instrument. Every student has an opportunity to participate, in either the music department, vocal, or instrumental.

In the vocal department each student has an opportunity to build his or voice to its fullest capabilities through participation in any one of a number of choral groups. The department encourages development in the history of music. Students express their vocal learning through concerts.

Mastering an instrument is a greater success than marching or playing football. It requires long hours of tedious practice, but in the end the student reaps the glories.

The instrumental department also gives concerts. To be a member of either music department means an advanced appreciation of the art forms.

GEORGE M. GILBERT, M.A.

*Vocal*

*Please, you must hold that note."*

CHARLES H. HANSEN, A.B.

*Instrumental*

*"Oh, the band is coming along . . . slowly."*

LAURA LEE BROWN, M.M.

*Vocal*

*"I never taught instrumental voices."*

HENRY A. SMITH

*Accompanist*

*"The voices are fine but this piano needs tuning."*

# SPEECH AND DRAMATICS

The student who elects Speech and Dramatics is looking to better himself. The course helps the student, who is willing, to gain self-confidence in speaking and presentation before one person or before a group. These desires for better oral communication are taken up in Speech I, Oral Interpretation, and Public Speaking.

A person can be very boring when speaking — especially if there is no movement in his words or physical self. The student learns to enhance his speaking ability through the use of hand movements and proper emphasis on words or phrases.

For students interested in performing onstage, courses in Play Production, Acting and Direction, and Modern Drama. The courses give the student experience in make-up, costuming, stage construction, and acting and help him develop his own personality through the study of others.

JOSEPH L. GRAMM, B.S.

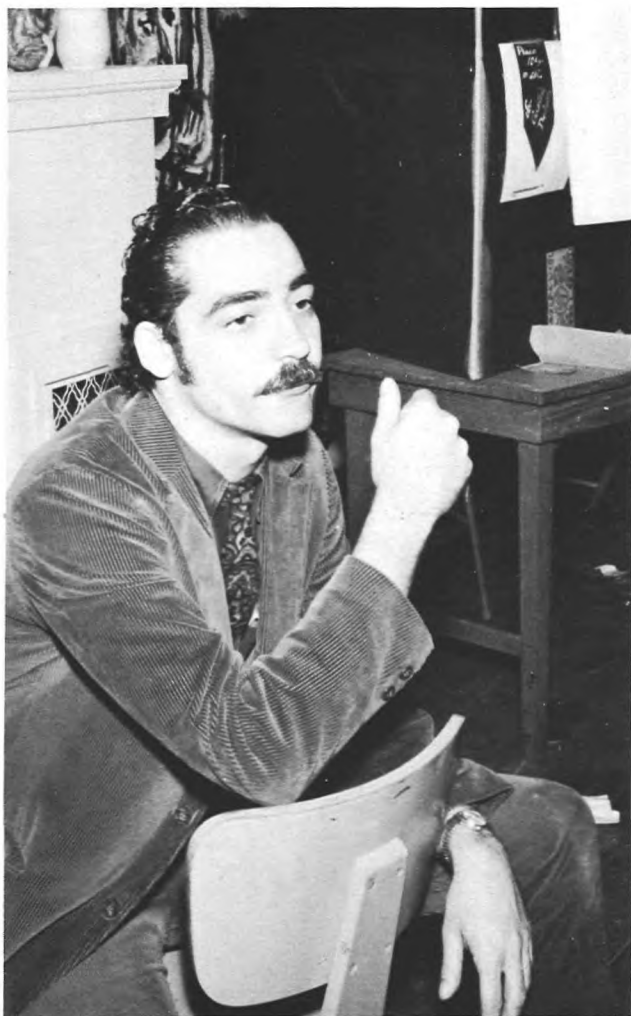

*"And now you shut the door on your fingers."*

SHIRLEY A. BOWEN, B.A.  
*"Just hanging around."*

JAMES LEINBACH, B.A.  
*"I'll just sit back and let you work this period."*

WILLIAM A. HAPPEL, JR., B.A.  
*"I'm supposed to be getting a hair cut today."*

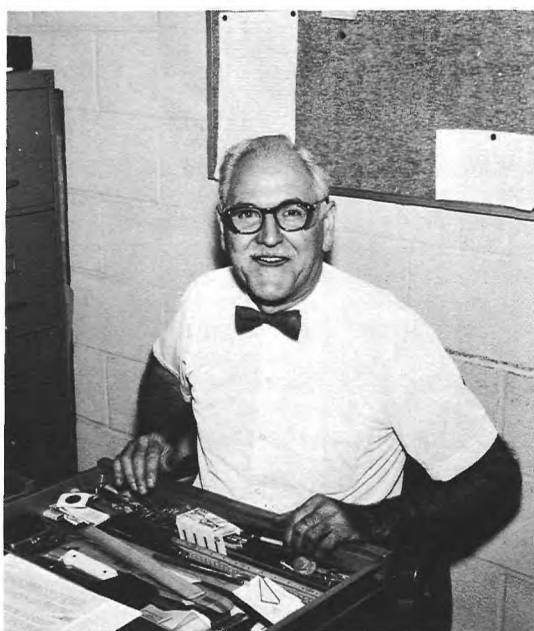

BERNICE PRICE, M.A.  
*"I'll bet it comes out Seven-Up."*

# INDUSTRIAL ARTS

The equipment and instruction available to students in this department is a welcome experience for any student who would choose to pursue his career in the mechanical rather than the business world.

Practically all phases of the industrial world are offered. The courses offered are woodworking, metals, graphic arts, mechanical drawing, electricity, and electronics. In each area, the student can branch out into more advanced research or apply his basic techniques to more difficult projects of his own choosing.

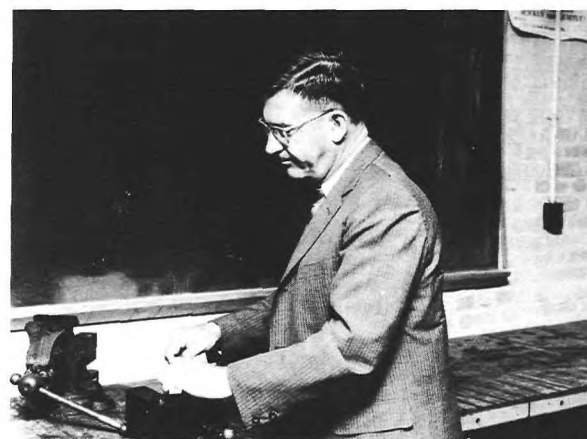

To help the student fully realize and work toward his future ambitions there is a work-study program which the student can take with the approval of his instructor. This subject gives the student on the job training as well as a sense of responsibility.

**RUSSELL RUBRECHT, ED.M.**

*Head*

*"I've seen worse kept offices in my day."*

**C. ARNOLD DEPAMPHILIS, M.A.**

*"Oh, that smarts!"*

**IRA BERGER, B.A.**

*"Just turn this nob and you get three wishes."*

**F. WENDELL TIETSWORTH, M.A.**

*"Plug the mike in first."*

**MICHAEL TYMCZYSZYN, B.A.**

*"It's called a piece of wood."*

**WALTER W. WENER, B.S.**

*"Either you draw crooked or your T-square is warped."*

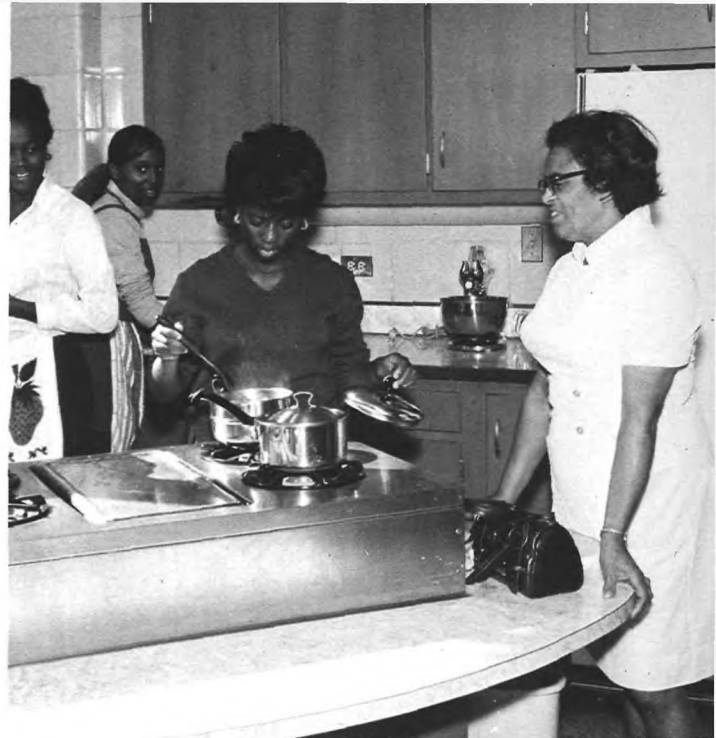

# HOME ECONOMICS

Home Economics here at E.O.H.S. is an elective designed especially for the young lady who has a strong desire to acquire or improve her sewing and cooking skills.

The teachers of the Home Economics Department are preparing our students for the future by teaching them the basic skills of sewing and cooking.

When one of our students desires to learn more she will advance to the next stage of that course until the time comes when she will be recommended for Home Economics Major.

To the girl who desires to learn the culinary arts and sewing, her goal will be easy to attain by attending the classes in our Home Economics Department.

VIRGINIA A. TOMLIN, A.B.  
*"You cooked it — you eat it."*

FRANCES M. HILL, B.S.  
*"I use a sewing machine whenever possible."*

DORIS B. LOCKETT, B.S. VOCO. ED.  
*"The rubber melted into the pan."*

BETTY L. POLZER, B.S. HOME EC.  
*"If you're through interrupting . . ."*

THERESA MATHES, B.A.  
*"Paper towels burn better than broccoli."*

# GIRLS' GYM

The girls' gym is always a fun place to be no matter what hour of the day it is.

The teachers are there to help you as well as have a good time themselves.

A fast moving volleyball game is always the time to watch the teacher display skills which you should employ during your games.

Our gym teachers are friends as well as instructors in the field of physical education.

FELICE DODSON, B.S.

*Head*

*"Welcome to my office."*

DORIS E. HAY, B.A.

*"No. We won't be sitting all year."*

SYLVIA HOOKS, B.S.

*"Nobody will miss these supplies for a few weeks."*

JEANETTE D. KRASKA, B.A.

*"No movie today. We'll just listen to the record."*

VIVIAN LENNON, B.S.

*"No demerits all day."*

# BOY'S PHYSICAL EDUCATION

LEON J. MOSS, B.S.

*Head*

*"I don't think I can afford to continue to refuse those Hollywood offers."*

A sound mind and body makes a well developed individual. Boys' physical education gives the student a chance to develop and use skills and techniques needed in sports and on apparatus such as mats, rings, buck, ropes, and parallel bars.

Before and after school there is offered a supervised program of intramural sports.

Courses in health education are personal hygiene, community hygiene, and mental and social hygiene. All are required courses and involve the physical, emotional, and social development. Personal hygiene covers the body; its structure, functions, care and diseases. In community hygiene the student learns the importance of the prevention and control of disease and practical first aid skills. Mental and social hygiene makes the student aware of health situations surrounding him and what the student as a citizen can do in society.

ROBERT I. LESTER, B.A.

*"What a job."*

FREDERICK D. MOORE, B.S.

*"Don't give me that line."*

RICHARD W. ROSS, B.S.

*"A healthy class?"*

EARL A. SPIVEY, B.S.

*"What should I do about your problem?"*

MATTHEW WARLIKOWSKI, B.S.

*"Surprise Nothing. I saw you."*

# DRIVER EDUCATION

EDWIN D. LEWIS, M.A.  
Head

*"I said the car is out of gas, oil, water, . . ."*

RONALD L. CONLEY, B.A.  
*"I don't trust anybody with my car."*

EDWARD J. MILLER, M.A. IN ED.  
*"See, no stowaways . . . Hee Hee."*

The course in Driver Education is two-fold. Driver's Education is a required course which meets once a week. It instructs the student in proper habits and attitudes he should acquire while on the road. The methods of teaching are numerous filmstrips, transparencies, lectures, instruction sheets and psycho-physical testing devices.

Behind-the-wheel is an elective course which meets twice a week. The student, with the experience and guidance of an instructor has an opportunity to put into practice what he is learning.

The combined courses give the future driver valuable information so that he will operate a better and safer car on the road.

SIDNEY FEINS, B.S.

*"If I can get my hand out of this reel, we can show the film."*

THOMAS B. TIEFENBACHER, M.A.

*"Don't push the brake until the light comes on."*

BRENDA FIORENTINO, B.A.  
JOHN MARTINO, M.A.

*Mrs. Meeson and Mrs. Coppola check daily issues of the paper.*

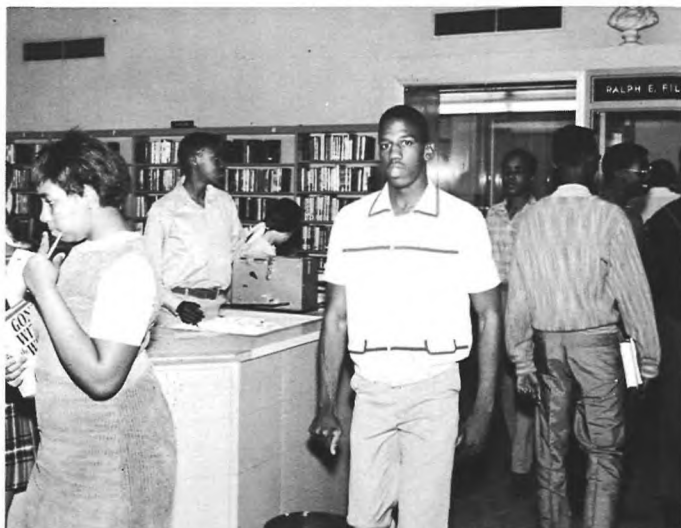

GEORGE N. FABIAN, M.S.  
"See the book."

MARY L. VIQUEZ, M.L.S.  
"If you want the name of an author . . ."

*The library is a source of knowledge available to the student at all times.*

## LIBRARY

The library is a place to browse, relax, research and feel free in any time the student has available. It is a conglomeration of books about love, sorrow, happiness, and circumstance in the world.

There are books written by philosophers, educators, cynics, optimists, intellectuals and everyday people.

In short the library is a place awaiting discovery.

# MEDICAL STAFF

LAWRENCE D'ARIES, M.D.  
*"Just five little pounds."*

FLORENCE SKARBNIK, B.S., R.N.  
*"No free medical advice today."*

LOUISE HARRIS, R.N.  
*"I do a lot more than give out peppermints."*

*Mrs. McMillan keeps order in the schools busiest student center.*

## STAFF

The real driving force behind a big project is often passed over without due recognition. Such is the case at East Orange High School.

To the people who really keep this school together and operating from day to day we say — THANKS.

*Miss Massiah answers any question pertaining to information about the high school.*

*Keep smiling. The day has just started.*

110 — "Yes, we're just one big happy family."

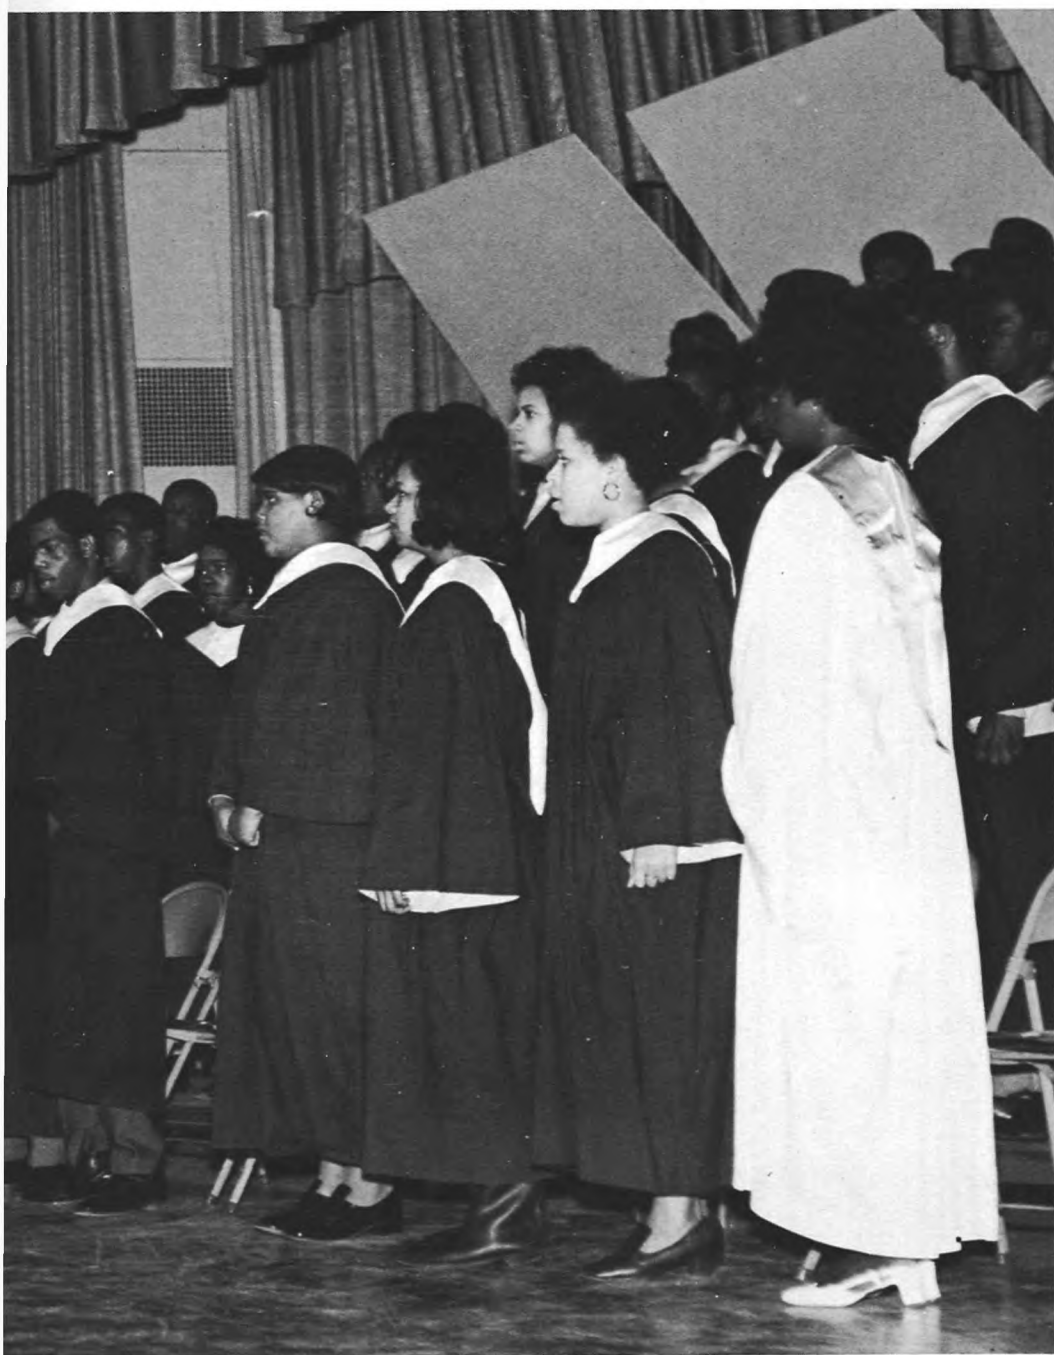

*"Double, Double, Toil and Trouble."*

# ACTIVITIES

A school is much more than the acquiring of knowledge which goes on within the classroom. After the 3:10 bell, a whole new world of clubs and sports begins, with students working and laughing together and finding fun in simply socializing. There is nothing to prevent them from gathering all they can hold from life. After the first evening performance of the successful play, after the issues of the *News* are finally distributed, then grows a deep feeling of satisfaction giving root in the knowledge that you have become involved and made East Orange High School better for having been here. By finding an outlet in clubs, sports, and other school activities, the students have an opportunity to express individual personalities and creative thinking.

# STUDENT COUNCIL

Room 217, the New Student Council Headquarters has brought new transaction among the student governing body. Student Council has shifted emphasis from money-making to service; becoming in the process a coordinating unit, *not* a controlling body, though they still retain their governing power.

Under the dynamic leadership of Ernest Stevenson there has been numerous changes in the student council. Things like the dress code, senior privileges, the new-will program and the student exchange program.

For the fourth consecutive year, the Student Council participated in the exchange program. In this program, interested students visit other schools, in the Essex County area and acquire ideas that would implement the function of the school system. In return, students from cooperating schools come and visit East Orange High. This program provides a good understanding and unity between involved schools.

Although the Student Council hasn't performed any fantastic accomplishments it has sufficed as a constructive learning experience for those students involved in the operation of their Student Government.

Norman Glover Jr., Vice President; Wanda O'Bryant, Recording Secretary; Cecile Bowser, Corresponding Secretary.

Miss Wharton and Mr. Peloisi advisors to Student Council go over the day's meeting with two students.

Larry Baskerville makes a suggestion to Student Council members.

*Ernie Stevenson president of Student Council, reads some important notes to the representatives.*

*Don't everyone smile at once.*

*Miss Wharton gives representatives final instructions.*

*"Don't they look funny."*

The 1970 Yearbook is a product of many things. It takes determination, imagination, patience, and leadership to put an annual together. It comes from long hours of discussion and decision spent after school.

The aim of the *Syllabus* is to capture the events of the year at East Orange High School. Many events such as assembly programs, noisy hallways, and quiet studying are presented in our annual.

A whole new world opens up at 3:00 p.m. for the student who takes advantage of it. It is dedicated people like these, writing stories and putting on a play, which enables you to read this page. It also includes eliminating old ideas and starting fresh with new ones; products of well-disciplined thoughts.

This is the completed picture which we have tried to bring to you. All that is left is the dedication of the book which is left to you, the student body.

Mr. Mellinger, Business Advisor and Mr. Wolverson, SYLLABUS Advisor go over the sales for the SYLLABUS.

# THE NEWS

FIRST ROW: S. Brown, K. Smith, T. Hunter, G. Chin.  
SECOND ROW: S. Tyminski, P. Phillips, J. Smith, D. West.  
THIRD ROW: G. Cole, D. Glass, R. Brown.

"To keep the majority well-informed" is the slogan used by the *News* staff. An on-the-spot news coverage of current happenings is the insurance that the students receive. This year the *News* featured well-written editorials, a speak-out column and several controversial editorial sections.

Each reporter begins as a tyro and works his or her way to become editor, photographer or editor-in-chief. When he or she has received their assignment, the reporter goes in search of an interview, and one may see them as they go around the school trying to finish their assignment.

The *News* gives any students interested in writing stories a chance to do so, thus becoming experienced in the journalism world.

The Martin Luther King program is one of the programs that the *News* reported.

#### NEWS BUSINESS STAFF

THIRD ROW: S. Bush, P. Abraham, D. Hooten, C. Bowers, D. West, V. Tisdale, W. Barber.

FOURTH ROW: J. Alexander, A. Owens, M. Bryant, R. Peterson, R. Jordan, T. Gaiter.

## NATIONAL HONOR SOCIETY

*New members are inducted into the Honor Society.*

The purpose of the National Honor Society is to create enthusiasm for scholarship, a desire to render service, and to promote leadership. This has become a service organization as well as an honorary organization. Its main contribution is the banking service and tutorial program.

This year as in the past, the Honor Society held a candlelight service, viewed by students and parents. It consisted mainly of junior and senior students who had achieved academic excellence and participated in two extracurricular activities. The members must maintain consistent honor roll status, to maintain the possession of the small gold N.H.S. pin which signifies a member.

## BOYS' AND GIRLS' STATE

BOYS' and GIRLS' STATE  
Barbara McCloud, Norman Glover, Mamie Hamlett.

Boys' and Girls' State is an exercise in government. Sponsored by the American Legion, this program brings boys and girls to the Rutgers-Douglass Campus in New Brunswick during the last week of June. Daily lectures are given on government structure and new methods are presented to mold the minds of future voters. They elect their own officials and pass their own laws. They are given every opportunity to display their leadership abilities. The highlight of the week is the election of a governor.

Boys' and Girls' State gives the delegates the opportunity to gain perspective in their views of their government's function.

## GIRLS' AND BOYS' COURT

To foster the very best discipline in the East Orange High School student body is the objective of the Boys' and Girls' Court. The members are selected by the faculty members for their outstanding character, leadership, and citizenship and serve for two years. Both courts meet twice a week to weigh the evidence brought before them. Each verdict made by the justices is a difficult one, but generally accepted as being fair.

BOYS' and GIRLS' STATE

# DRAMA

You're at a meeting in early winter. A play is chosen! You find yourself reading the script and acting even though you have never spoken before a class. The cameras and lights thrill and dazzle you. Then . . . it's opening night. Don't get nervous!! Tension, builds up and . . . finally you're on stage! It's a glorious feeling and you want to do it again; now you are caught in the theatre craze.

This is the type of feeling the members of the Drama Club go through before and after the opening of a play. All of the members learn how to build their voice and show expression with feeling. They also learn about the history of the theatre.

There were two plays put on this year; *Arsenic and Old Lace* and the *Glass Menagerie*. With the help of Arts Incorporated, the plays were presented superbly.

Once you join the Drama Club you become a member of a family, not just an organization. You are inflicted with the strange incurable disease, the spirit of the theatre. It can't be explained but is felt by being involved.

# BAND

The East Orange Panther Band learns a drill a week. Look sharp! Ten thousand people will be at the stadium on Saturday. They have a distinction all their own. . . . Their selections vary from classical to jazz and marches highlighted by the precision Pantherettes.

This didn't come automatically without long hours of practice at home and in freezing weather. This became a part of their life.

The Band's duties extend beyond the football season. They give winter and spring concerts and perform in the Christmas program.

When one joins the Band, he becomes a member of a family, who is sometimes forgotten. Let us not forget the family which serves and represents East Orange High.

**COLOR GUARD**

FIRST ROW: G. McMillan, Co-captain; D. Sheard, Captain.

SECOND ROW: L. Walker, M. McCoy, D. Wright, J. Smith, E. Simpson, P. Abraham.

Showing their well-disciplined skill, the Pantherettes brought pride to East Orange High and the community. Their highly disciplined skill is known all over the state. They perform on the field, at pep rallies and assemblies.

The high-stepping Drill Team led by seniors Marilyn Davis, captain, and co-captains Donna Bridges and Diane McClaren, added color and zest to the Montclair game with their new uniforms.

The Color Guard, led by seniors Diane Sheard, captain; co-captains Gail McMillan and Leah Walker held their audience spellbound with their rapt precision marching and gun routines. They also added assemblies to their list by carrying the flags during assembly programs.

The Twirlers surprised their audiences with micro-mini outfits and shorts at the Montclair game. Led by seniors Debbie Parker, captain and co-captains Ginger Williams and Sharon Fletcher, they thrilled the East Orange crowd.

All the girls felt it took a lot of sacrificing and long hours, but the honor of performing made it worth while.

# CHEERLEADERS

On East Orange, On East Orange,  
Plunge right through that line.  
Push the ball around the goal post  
A touchdown, sure, this time,  
Rah, rah, rah!  
On East Orange, On East Orange,  
Onward to her fame.  
Fight fellows Fight! Fight! Fight!  
And we'll win this game.

This song can be heard every Saturday at football games. The cheerleaders helped embody the spirit at football games by the spontaneous pep rallies and the cheering at lunch. To be a cheerleader is an honor, for no other squad is more actively involved in school activities than the cheerleaders. This requires a lot of practice, patience, and frustration but in the end it is—wonderful!

The members of the foreign language club enhance their understanding of the language by sampling various aspects of the culture.

Le Cercle Francais and Circolo Italiano are mainly interested in the arts. They take various trips to museums and the theatre for the exploration of their language.

El Greco is the oldest language club in the school. Its age represents the infinite contribution of the Spaniard to the humanities.

The annual slave trade given by the Junior Classical League (Latin Club) enhances the sampling of the Roman culture. Also for grandeur, a banquet is held in honor of the Latin Club members.

New York or bust! is the attitude taken by members of the German Club. To achieve the "old country" feeling, they visit many quaint old shops and museums.

It's a small world when one can associate with the civilizations of other nations through the use of language.

# SERVICE CLUBS

Many organizations are formed for the benefit of the students as well as the school community. While these students are performing various duties, they are being prepared for services in the community.

"Where may I get an overhead projector?" Ask the students in the Audio-Visual Aides center. The students not only handle movie projectors and films, but contribute to assemblies and dances.

Future Librarians help the teachers and Librarians check out, arrange and keep records of books; a vital task for an efficient library.

"May I have a program please?" can always be heard by members of the Usher Squad. Collecting tickets and showing visitors to the best available seats, the members of the squad may always be found.

Keeping record of students medical visit is the main job for the medical assistants. Also aiding a student when he or she is leaving school due to sickness.

"Will someone please deliver these slips?" is the main question confronting 110 assistants each day. If they are not delivering slips, they are checking attendance, typing and delivering absence lists.

A visitor may always rely on the main office assistants to help them on their way. These students like many of the others give up their study periods to work in the office.

Language Lab assistants are great help to those who are learning a language.

The Principal Advisory Board is a group of students who bring suggestions made by students to the Principal.

The Election Committee decides when the various elections shall be held in the school.

# CAREER CLUBS

A look into the future and a productive life is what a student may see and achieve when he joins one of these clubs.

The Junior Achievement, Distributive Education and Cooperative Office Education are clubs for those interested in the business world. The Distributive Education Program gives young men and women a work-training opportunity in re-tailed business. The Cooperative Office Education program, started by Mrs. King, gives girls an experience in office work.

The year 1970 is a year of fashion and because women today are fashion conscious, the Fashion Pacers give girls and even boys an introduction to the various careers in the Fashion World. The members sponsored a dance and fashion show.

Students are always wondering about their profession in life. Because of such clubs as F.U.T.-E.A., FUTURE NURSE, and the PHOTOGRAPHY Club, there is an opportunity for them to meet professionals in their interested fields.

Amateurs can test their skill and learn more in the Amateur Radio and Chess Clubs.

# STUDENT COALITION FOR DEMOCRACY

This is the age of reform. The Student Coalition for Democracy was established for the purpose of getting the students aware of our government legislation.

This was the group that organized to lobby for a change in the voting age. The members of SCD held talks with the governor and members of the Congress in Trenton, N.J.

This is an organization for aware students and one that wants to be aware in governmental matters. If you are one of these students, join the Student Coalition for Democracy and help change the legislation for a better 1970.

## S. T. U. B.

With the increase in the number of students each year, there is always a problem of conflict between student and teacher relationship. The Student Teacher Unity Board tries to unite grievances between teacher and student. They try to reach the cause of the grievance and a probable solution. Any student or teacher may bring their complaints to this board. With teacher and student working together, there is a feeling of greater understanding with the problems on hand.

# ATHLETIC ORGANIZATIONS

Embodying physical well-being and the spirit of competition is the bases for participation in the clubs for athletic accomplishment.

Weekly activities are held in the Girls' Athletic Association. Interscholastic contests are held in various sports as basketball, volleyball, archery, tennis, ping pong and bowling. A girl can't play the game without knowing the rules. A period is spent on learning the rules of basketball by refereeing a basketball game.

The Booster Club helps capture the spirit of the football games. They march to the stadium and sit on the fifty yard line and urge them on.

Boys who have participated in any varsity sport are eligible to be in the Varsity Club. They try to encourage fellow students to participate in sports.

The World Youth Forum believes there is no greater problem than communication, especially when it concerns youth. Since youth all over the world are trying to solve problems such as war, poverty, education, pollution, and over crowding there musn't be a language barrier.

Each year the World Youth Forum arranges for young people from countries to come to the U.S. for a ten week period at a student's home. They are high school seniors chosen for their scholastic achievement and knowledge of the English language.

This year our delegate, Gizachew Wobishet, came from Ethiopia. He was interested in the problem of education. He stayed at the home of John Young.

## PROGRAMS

A variety of programs were presented this year to broaden the students' minds about various cultures.

Through song and dance, the Ishangi Dancers dramatized their African culture and dress. The participation of students in the Martin Luther King and the Crispus Atticus Programs enhanced the students' minds in Black history.

There were programs dealing with the body structure as well as the mind such as the annual Sports Awards Assembly. There was a program presented by the Chrysler Corporation on the importance of "defensive" driving.

Although these are a few of the programs held this year, each was designed to strengthen the student in every possible field.

# ATHLETICS

The Athletics Department at E.O.H.S. seeks to capture the interests of the students concerning the betterment of their minds, bodies, and their sportsmanship qualities. Through vigorous training, the coaches attempt to develop participating students and bring out their desire to win — not necessarily a victory of points, but more a triumph over themselves as they work towards a goal consistently until they are satisfied with their efforts.

This has not yet been a particularly brilliant season. There were disappointments in the form of agitators, hurt feelings and bad sportsmanship demonstrated on the part of a minority of E.O.H.S. fans.

Although the spirits of the fans sometimes succumbed to less than desirable behavior, the teams always managed to bear the brunt of less than sportsmanlike behavior.

All in all, the season was a success because of the unity of team and student support in disregard of team scores.

# FOOTBALL

*Johnny Battle scrambles for safety.*

With the emotional setback of losing all of the exhibition games, the Panthers united with the assistance of coach Tom Dean to prepare for the upcoming season.

Leon Griffin held the position of offensive quarterback, who attempted to execute the plays that would gain valuable yards to victory. Using Billy Brooks along with others as protection, Griffin was able to give the ball off to Alvin Smith (Tailback), Ralph Folkes (Fullback), and Johnnie Battle (Swingback). When these men received the ball, it was similar to that of lightning, an indestructible missile which would subside only when it has reached its ultimate goal. But if Lloyd Johnson (Center) didn't snap the ball correctly, the team wouldn't get the opportunity to get on the scoreboard.

The conclusive success of the offensive squad is directly related to the ability of the defensive squad to hold the line. Herbie Askew, as captain of the defense, had the knowledge to use his linebackers such as Paul Hardaway and Gregory Holmes, to their fullest capabilities to stop the enemy on the line. Thomas Ayres and Ted Creecy were always able to make the key tackles which prevented valuable yards from being gained. The lightning speed of Thurmond Cohen and David Lawrence continued throughout the season to prove a threat to the opposing team.

However, it is always difficult to lose and not be State Champs, especially after two years of undefeated seasons. But it is just as hard to win as to overcome the physical and emotional experience of realizing in the season that first place is out of reach and still win three out of the last four games. Therefore, the 1969 football season demonstrated just as much sportsmanship as did the championship teams of the two previous seasons.

## CROSS COUNTRY

The scoring of cross country is slightly different from the usual point system. Each team's first five runners are given points to the place he finishes. Therefore, the team with the lowest score is the victor.

The team won against rival Montclair but lost severely when they played Central and East Side. Revenge was taken on South Side in the form of a 51 to 16 victory. However, under the supervision of Coach Spivey, the team placed sixth in the Essex County Meet and seventh in the Big Ten Meet. Such athletes as Sidney Snelling, Fred Shack, Dave Revell, and Clarence Grant will be sorely missed due to graduation. The team for the upcoming season has a hopeful outlook with Keith Sanders, Brandon Hayes and Rueben Colquit.

As a result of the highly skilled coaching of Mr. McCormack, the members of the soccer team were molded into true athletes who displayed teamwork and exceptionally good sportsmanship. These qualities that are now possessed by the players of the team have made them better individuals. However, the record of the soccer team will hopefully become better as the years go on.

# BASKETBALL

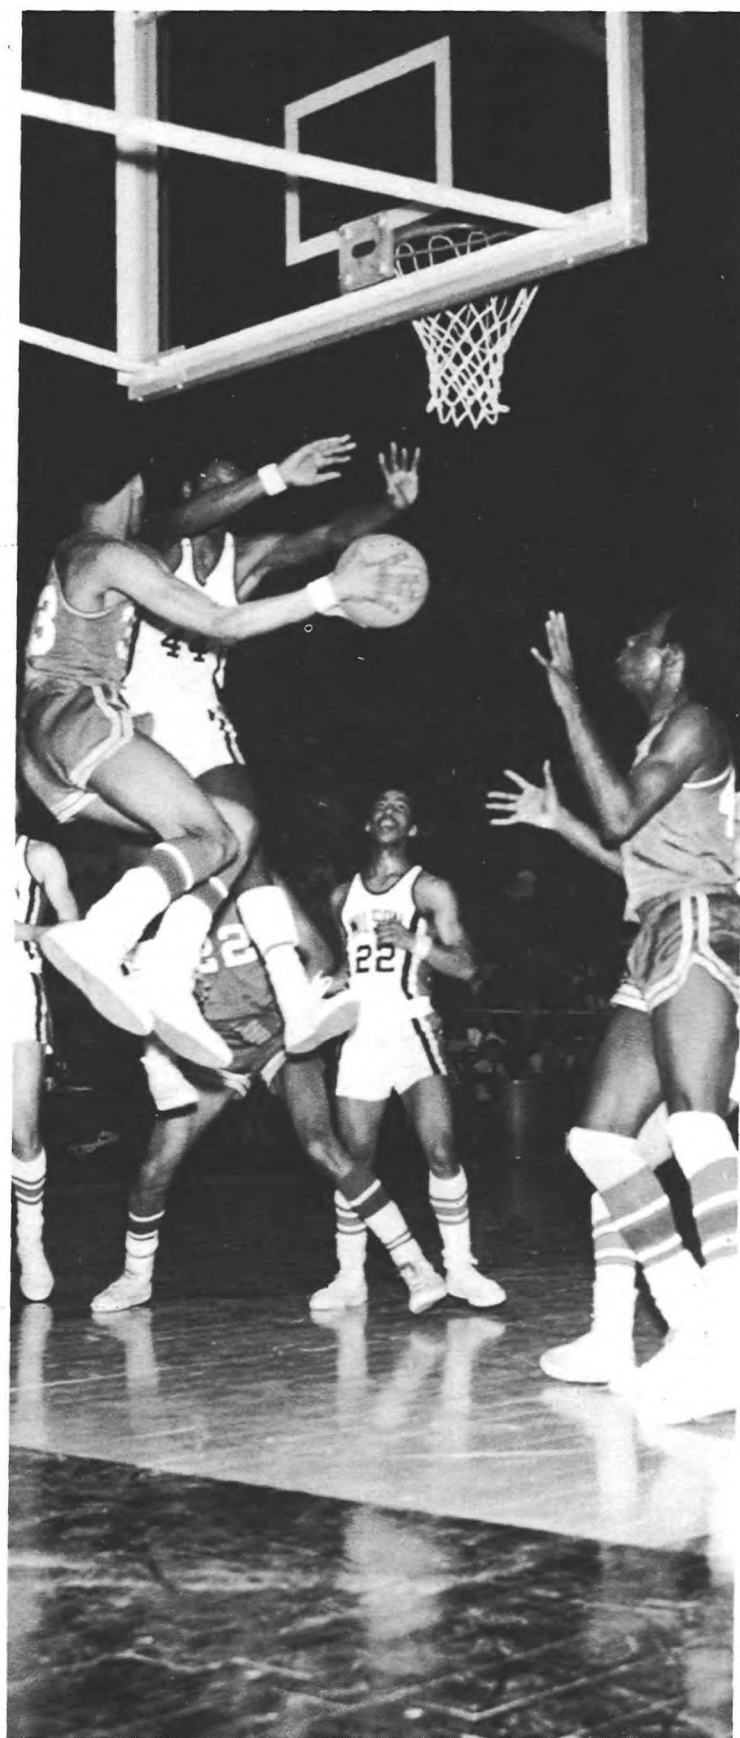

The athletes of this team put in long hours of extensive hard work and continuous drilling in practice. Coaches Milner, Warlikowski, and Ross were able to bring forth the fullest capabilities of these men to near perfection.

Towan Butler and Warren Melvin had the superior speed and accurate shooting which put the team on its winning streak, along with Moe Thomas who kept the team spirit alive in its tense moments with his actions on the floor. Wayne Groves and Michael Dabney not only had the height to dominate the rebounding under the boards but also had the ability to shoot accurately under pressure. Floyd Jefferson played an important role on the court in maintaining a constant lead over most of the teams. However, to make an attempt to express the true capabilities of Dennis Motley in words would be futile because it would serve no purpose other than to do him injustice. He played with an unceasing desire and determination to win every game that was matched only by his teammates. Motley displayed the type of ball handling in the Wilson game that will insure his success in the future of basketball.

However, the fact remains that individuals alone do not produce a successful season in which they are able to place the team second in the entire state. A squad must function as a cohesive fighting unit with one goal — that is victory.

*Valuable coaching is given during timeouts.*

*Dennis Motley fakes shot and passes.*

# BOWLING

Under the supervision of coach Miller there were substantial improvements over last year's record. After a somewhat slight depressing season of 9 wins and 30 losses, the team was able to overcome these emotional hindrances and rallied to place second in the New Jersey Interscholastic Handicap.

The vigorous determination and desire to win that was illustrated by the bowling team assured its success and this type of sportsmanship will carry the team to complete victory in the future.

*Perfect form is demonstrated by James Womble.*

*Deep concentration is executed by Harold Warnick before releasing the ball.*

## STATE CHAMPS INDOOR TRACK

Coach Thompson demonstrated what hard work and determination can result in if the team has the ability. It is quite obvious that the athletes of this year's indoor track team had the ambition along with the ability to become state champs. The mile relay team placed first in the state meet, second in Scotch Plains, third in the Meet of Champions, and third in the N.J.S.I.A.A. Relays. The sprint team placed second in the St. Joe's Relays. This record illustrates the ability of true athletes in their best physical condition.

FIFTH ROW: S. Snelling, F. Shack, R. Brown, S. Jacobs, J. Caffee.

## OUTDOOR TRACK

Despite the pulled muscles, the sprained ankles, and the shin splits which were caused by the almost inhumane practices that were issued by coach Earl Spivey, the team made considerable improvements.

This type of coaching separated the mediocre athlete from the championship athlete that will go on in life upholding the high standards of sportsmanship which only a true athlete may possess.

Proof that significance of hard work, desire, and determination pays off, can be illustrated by such men as Sidney Snelling and Keith Sanders, who in the two mile almost never failed to come in first and second place. Fred Shack displayed superior ability in the mile and Ernie Stevenson always came through in the half mile. These are only a few of the many outstanding athletes who contributed to the placing of the 1969 Outdoor Track Team 3rd in the Big Ten Relays and 5th in the Essex County Group IV meets.

Possibly one or two of these men will become a member of the U. S. Olympic Team with the proper coaching in the years to come because the training received in E. O. track team is a very good foundation.

*Sidney Snelling begins concentrating on pacing himself.*

*Rudy Brown combines form and speed in order to win.*

*The Panthers dominate the quarter mile.*

*A quick start is necessary for victory.*

*Dennis Humphreys illustrates the perfect form a successful javelin thrower possesses.*

## BASEBALL

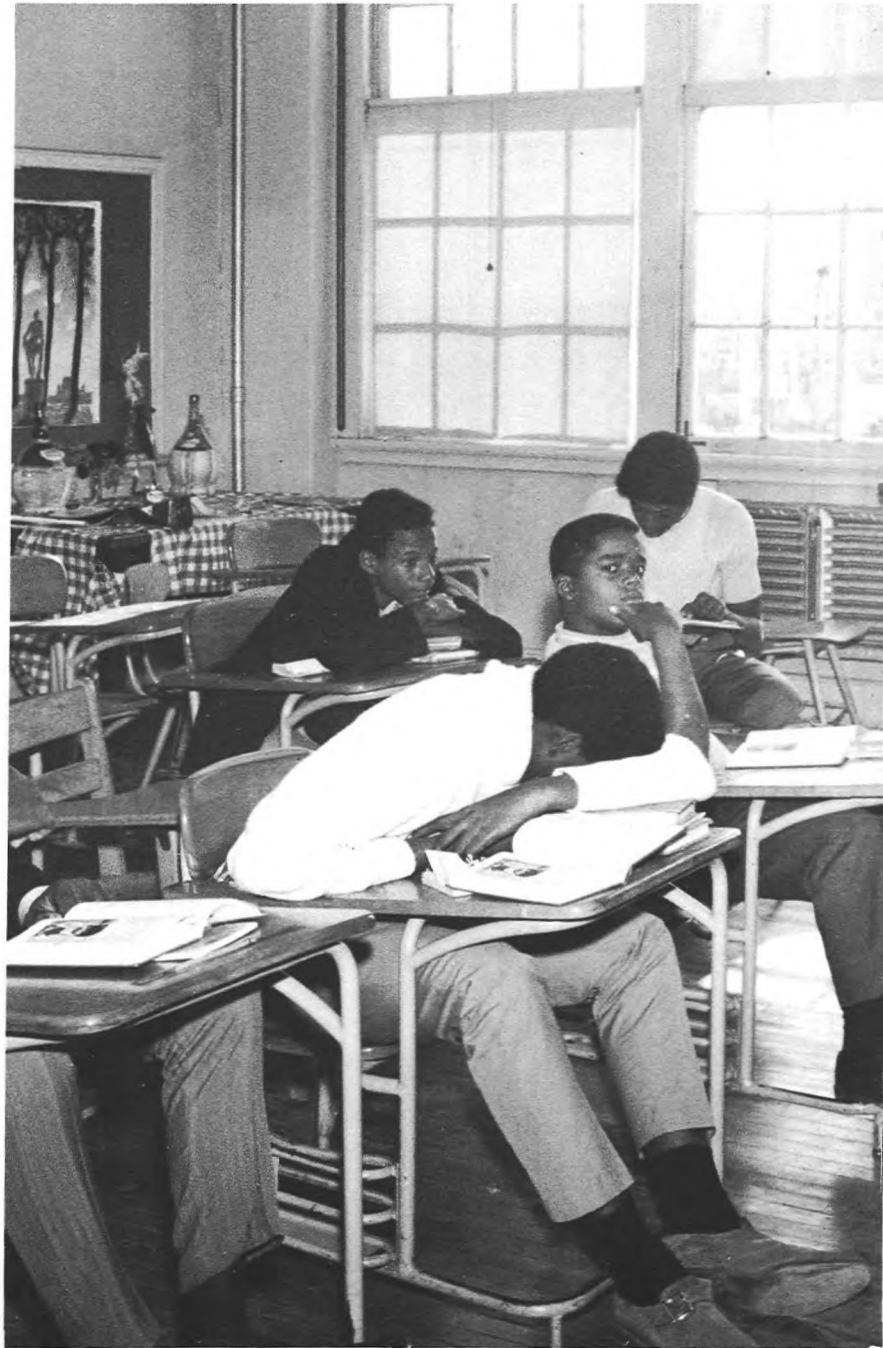

The knowledge of precision which is essential in the foundation of championship teams of baseball that has been gained from the coaching of Mr. Wear by these players will prove profitable in the future. Although there were numerous defeats in the 1969 season and few victories, the 1970 season will exemplify the superior talent of the players that didn't graduate. Those remaining athletes will put East Orange once again in the Big Ten Conference. As for the athletes that did graduate, they will be an asset to their college baseball team or there is the possibility of entering the major leagues as a career.

*Brad Edgerly combines power and concentration resulting in a base hit.*

# CLASSES

In the period of four years in attendance at E.O.H.S., each individual will hopefully develop a mature attitude concerning life, school, and other people.

E.O.H.S. teachers and the Board of Education will try to instill within each student a new and definite hope for the future to go out and face life as it actually is.

Attending school is a necessary part of life. It rounds out the character of all those involved with the person. Teaching school requires each student and teacher to give something of themselves. In return the results are most rewarding.

The four years spent in East Orange High School will prepare all of its students for a bright, better, and more meaningful future.

# FRESHMEN

To a Freshman, E.O.H.S. is a unique and thrilling experience. Traveling down vast unknown corridors to classes where each subject unlocks the door to many exciting and wonderful adventures in learning as well as good times.

Gradually the thrill of being a Freshman wears off and one matures to the next stage of becoming a sophomore.

# JUNIORS

Now an upperclassman, times changing and the once wise-fool now has an air of sophistication about him. Slowly approaching the time when he becomes a member of the somewhat elite class of Seniors, the Junior still feels a little left out for he is in-between.

Then that glorious day comes . . . He's a Senior. Gee, it feels the same.

Now, that final year has arrived. It's every man for himself. Each individual has to find that tiny light which will ultimately lead to that final great success in life.

It's now that you finally realize that you don't know as much as you thought. A time when you seem left alone in the world because all your friends start to scatter and do their own thing.

Leaving E.O.H.S. seems to be the end of a very worthwhile experience, but in reality it's really the beginning of an exciting career!

Let us march on seniors . . . victory and success await us!
